## Career Objective

Motivated Java Developer with a strong foundation in Spring Boot, RESTful API development, and backend systems design. Passionate about building scalable, highly available microservices and eager to apply cloud technologies like AWS in real-world applications. Seeking an opportunity to contribute to robust software solutions while continuously enhancing technical and architectural skills.

## Education

|                                                                                                                                                                                                    |                |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| <b>Pranveer Singh Institute of Technology, Kanpur</b> <ul style="list-style-type: none"><li>B.Tech in <b>Computer Science Engineering</b>, Percentage: <b>77.25%</b> (till 6th semester)</li></ul> | 2023 – Present |
| <b>Delhi Public School, Sonipat</b> <ul style="list-style-type: none"><li>Intermediate, Percentage: <b>81.2%</b></li></ul>                                                                         | 2021 – 2022    |
| <b>Delhi Public School, Sonipat</b> <ul style="list-style-type: none"><li>High School, Percentage: <b>77.6%</b></li></ul>                                                                          | 2019 – 2020    |

## Skills

- **Programming Languages:** Java, SQL, JavaScript
- **Frontend Technologies:** HTML, CSS, React.js
- **Backend Technologies:** Spring Boot, Spring AI, REST APIs, JWT Authentication, JPA/Hibernate
- **Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming (OOP)
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Eclipse, MySQL
- **Soft Skills:** Communication, Team Collaboration, Time Management, Analytical Thinking

## Projects

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                            |
